

## Hutchinson Emergency Home Repair Grant Program Grant - No Monthly Payment

The Hutchinson Emergency Home Repair Grant Program is to assist homeowners with a **GRANT** for eligible emergency home repair costs.

Eligible repairs are for failure of a heating, electrical, ventilation or plumbing system in a home.

- Other emergency conditions that could cause the home to be or become uninhabitable may be considered on a case-by-case basis.
- *Wanted repairs must be subject to a building/electrical permit inspection.* If the wanted repairs are **not** subject to a building permit inspection or a State Electrical Inspector inspection then the homeowner is not eligible for the grant program. *Wanted repairs cannot be started before HRA approval.*
- The Grant is for emergency repair costs not to exceed **\$5,000**. Any costs exceeding the maximum will be the responsibility of the Homeowner.
- Two comparable bids from Minnesota licensed contractors need to be submitted with the program application.
- No HRA inspections will be performed but the homeowner/contractor will be required to get a Building Permit from the City Building Department or the State Electrical Inspector and follow that process. This option addresses only limited eligible work items requested by the homeowner that are subject to the City of Hutchinson’s building permit or the State Electrical Inspector permit. Only a building permit inspection for the specific work item will be performed. The HRA and City of Hutchinson will not perform a full house inspection and is not responsible for any other code issues that may be present.
- No materials only loans. Payment will be made directly to the selected contractor on behalf of the homeowner after completion of the project.
